BRAZOS COUNTY MUSICAL CONVENTION

Third Annual Meeting at Reliance---Delegates---Officers Elected---Interesting Program Today.

The third annual two days meeting of the Brazos county musical convention opened at Reliance yesterday with President C. E. Whittington in the chair and several hundred people present, Brazos, Madison and Grimes counties being represented. There was a large attendance of delegates, and the interest shown in the work was very marked and highly creditable. Brazos county is justly proud of her singers and they have a noble mission to perform. The praise of song is second only to the worship of prayer, and the gospel singer goes hand in hand with the minister in leading mankind to salvation.

THE PROCEEDINGS.

The house was called to order at 10 a. m. by President C. E. Whittington who led in the singing of two selections.

Prayer was offered by Rev. H. T. Palmer.

C. E. Bullock and Rev. H. T. Palmer were appointed a committee to read credentials which was postponed until the afternoon, and a part of the morning was spent in singing, the leaders being A. W. Dyess, Tony Dyess, W. H. Wiley, Rev. H. T. Palmer of Bethel; Jesse Hicks of Wickson; Prof. N. L. Outlaw of Grimes county; Will Terry of Steep Hollow.

Prof. Gutlaw and Will Terry were appointed a committee on class arrangement.

Elijah Thompson of Alexandria, A. W. Dyess of Bethel, and Eugene Shealey of Reliance were appointed a committee on program.

The convention adjourned for dinner with a benediction by Rev. J. M. Bullock.

At 12:30 a splendid dinner was spread in a grove near the church, and, after Rev. J. A. Freeman of Wickson had invoked divine blessing, it was greatly enjoyed by the large crowd present. The ladies had provided an abundant and magnificent repast, such as is only found where genuine hospitality has no bounds.

The convention was called to order again at 9:30, with singing, and Rev. J. M. Bullock delivered the welcome address which was full of interest to young and old alike and especially to the singers.

The committee on credentials read the lists of delegates received from the various choirs which are given below:

Reliance—Misses Cassie Riley, Fannie Shealey and Claud Morgan. Alternates—Misses Minnie and Etta Bullock.

Tryon Hall, (Kurten)—Misses Emma Cloud, Ida Price, T. L. Tobias. Alternates—T. A. Cloud and Olie Buckhaults.

Alexandria—James Parker, Elijah Thompson, Thomas McCollum. Alternates—Misses May Thompson and Eva Lefevre.

Cottonwood—Misses Dollie Elliott, Emma Hickman, and Roy Zimmermap. Alternates—Misses Effie Gannaway and T. M. Turner.

Betnel—Misses Lula Pate, Ida McClung, and Tony Dyess. Alternates—W. K. Marriott and Rev. H. T. Palmer.

Brightlight—Misses Maggie Holland; Ida Graham and Sunshine Cole. Alternates—H. O. Ferguson and R. A. Holland.

Wickson—O. K. Freeman, E. J. Beard and Miss Myrtie Beard. Alternates—Misses Inda Freeman and Maggie White.

Thompson Creek—H. O. Conway, W. E. Conway and J. A. Henry. Alternates—Misses Lillie Wadsworth and Ada Conway.

The election of officers of the organization for the ensuing year was held and resulted as follows: C. E. Whittington of Reliance, re-elected president; W. H. Wiley of Bethel, vice-president; E. J. Beard of Wickson, secretary and treasurer.

The remainder of the evening was spent in singing with leaders from the various choirs.

TODAY.

The exercises today will be of a highly entertaining character, including music and addresses, and an immense crowd is expected. In addition to the talented singers of Brazos and surrounding counties who will be on hand, the well known teachers and leaders, Profs. F. L. Eiland, J. W. Acuff and W. D. Everidge, will be present and take part in the exercises, Prof. Eiland being accompanied by his wife.

OF INTEREST TO THE LADIES.

The ladies will be interested in knowing that we now have in Bryan a store that makes a specialty of ladies goods. Call at Gilmore's and you can get every necessity, convenience or luxury that a lady can use from the crown of her queenly head to the tips of her dainty toes. Gilmore has the goods and if you will call he will make the prices suit every one.

SUNDAY, JUNE 18, 1899.

"If any little word of mine
May make a life the brighter,
If any little song of mine
May make a heart the lighter,
God help me to speak the little word
And take my bit of singing
And drop it in some lonely vale,
To set the echoes ringing."

It is clearly seen that on the
imperative issue of a firm and
united stand against the trust evil
the democracy of the entire coun-
try is compact in its unanimity of
sentiment. This welding together
of the trusts themselves, whose re-
cent tremendous growth and vast
arrogance of immunity from the
law has caused a full recognition
of the danger confronting the coun-
try. There will be no abatement
of the anti-trust sentiment until
the people shall have been made
safe from the oppression of mon-
opolies and combines.

This safety will come through
the democratic party, legitimately
arrayed in behalf of the people
against the trusts. The war now
fairly begun contains no menace to
any legitimate business or indus-
try. It is a war upon the trusts,
which enslave and destroy legiti-
mate business and fair competition,
and override the natural laws of
supply and demand. Victory in
such a war will mean the liberation
of commerce and industry from
the chains fastened upon them by
the trusts. This victory will be
won by the people, led by the
democratic party, and it will be a
victory in which sectionalism will
have no part.—St. Louis Republic.

THE CELLAR.

Sink, garbage box, cesspool, etc. need attention now. Much of the sick-
ness in the warm months is due to lack of disinfection. Disinfection
now may save doctors bills in the future. Be on the safe side; use our

Carbolic Disinfecting Powder.

It covers the want of a powerful disinfectant in powder form. It is com-
posed of valuable materials, each having its own peculiar disinfecting
properties, in combination with the well-known anti-septic, carbolic
acid. We especially recommend it to disinfect sick rooms, drains, sew-
ers, cesspools, stables, etc., as it does not mask, but entirely destroys all
noxious odors and vapors and poisonous germs of disease with which it
comes in contact. No soiled hands or woodwork from its use. Price,
25c per Pound Package.

Call at Drug Store for Free Sample.

BRYAN, TEXAS

TOWN WASHED AWAY

Village of Blackett Swept Clean by
a Great Flood.

NARROW RESCUES.

Many Persons Taken from Housetops
Floating in the Water—The
Damage to Property Will
Exceed \$200,000.

San Antonio, June 17.—The town of
Brackett, 120 miles west of here on the
Southern Pacific railroad, where Fort
Clark is situated, has been washed
away. The loss to property will foot
up about \$60,000 in the town and will
exceed \$200,000 in the vicinity.

The Las Moras creek, which runs
through the town, rose some 30 feet
during the early part of Wednesday
morning and last night was five
miles wide.

It came down in a rush on the town
just before day and took everything
before it. Houses were raised from
their foundations and scattered around
promiscuously.

No lives were lost in the town but
many had very narrow escapes. It is
feared that there has been much loss of
life up the creek.

The water in the main street was run-
ning in a torrent 12 feet deep and with
such velocity as to show a perceptible
elevation in the center of the current.

Down the street floated household
furniture, carts, wagons, horses, cows,
fences and houses, in one seething mass
of confusion. Above the roar of the
waters and the crash of the wreckage
could be heard the screams of women
and children.

Just about daylight Friday morning
a light frame house, rapidly going to
pieces, floated down Main street with a
woman and two children.

Fortunately, it lodged in a drift and
the woman and children were rescued
by Dr. Woodson. As daylight began to
dawn every housetop left standing was
seen to be covered with men, women and
children, wet, cold and shivering and
suffering from the terrible experience
they had endured.

There were many hairbreadth escapes
and many acts of personal heroism.
Joseph Veltman and his family had
a narrow escape. After the water be-
gan to rise they got on the tables; from
the tables they were forced up to a
plank that lay across the joists, then all
escape through the doors and windows
was cut off by the rapidly rising waters.

Mr. Veltman began to make a
hole. The pounding attracted the at-
tention of John Clapp, who diving
the cause secured an ax and forcing his
horse into the water swam toward the
building until the horse became en-
tangled in a fence, he left him and
swam to the house.

All this time the pounding on the
inside of the gable became more rapid.
Clamp with a few well directed blows
with the ax cut a hole. A raft was
hastily constructed and the family were
saved.

William Holmes saved his mother by
his coolness and nerve until they were
neck deep on the piano. He dived down
through and out the window and on the
housetop, where he tore off the shingles
with his hands and pushed his mother
and sister on the roof.

Many other families were saved in the
same way.
Dr. Woodson from Fort Clark was
out in a skiff at daylight and through
his untiring efforts many lives were
saved.

But for the quick and effective relief
afforded by Captain Cornish of the
Ninth cavalry, now commanding officer
at Fort Clark, whole families would
have undoubtedly been drowned.

GREATEST RISE KNOWN.

Rio Grande at Eagle Pass Eight Feet
Over the Highest.

Eagle Pass, Tex., June 17.—The oldest
inhabitant is dumb. High on the cliff
overlooking the Rio Grande is cut the
century's record of its greatest rise, the
river reaching a rise of 40 feet.

Wednesday's amazing flood left its
mark fully 8 feet over the highest. All
this wild waste of water fell Tuesday
night in the country northeast of Eagle
Pass.

Railway trains and bridges were swept
away like straws before the wind. Be-
tween here and Spofford 20 miles of
track and all the bridges are gone.

Between Del Rio and Nachono five
iron bridges were washed away. The
costly county bridge over Arroyo Feco
is gone.

The main structure of the Interna-
tional footbridge over the Rio Grande
remains unharmed, but 300 yards of
trestle approach is swept away, carry-
ing with it the electric and telephone
wires and water mains connecting Eagle
Pass and Piedras Negras.

Some 50 houses under the hill were
washed away, but the people and most
of their belongings were saved.

All the valley farms are under
water. The pump stations of the water-
works, electric light and ice factory are
submerged, cutting off for some time
the supply of these necessities.

Another Man Killed.

Middlesboro, Ky., June 17.—In an-
other collision between the Lee and Tay-
lor factions on Puckett's creek, Harlan
county, a man named Speeder was shot.

you drive to or from Bryan don't forget to read the
s signs on the road,

Yours Truly,
WILL R. THOMAS.

Sacrilegious but to the Point.
Persons believing in more practical
Christianity may see a moral
in the following:

A tramp, who said he was out
of work temporarily, called at
the kitchen door of a residence in
West Philadelphia yesterday af-
ternoon. He was all ashiver with
cold, and face, hands and poorly
clad feet were benumbed. It so
happened that the cook and oth-
er servants being away the mis-
tress of the house opened the
door and heard his plea for a
"bit to eat." Being a good wo-
man, and remembering the day
and the greatest of the three
Christian virtues, she went to the
larder and then returned to the
door with a half loaf of bread.
"Here," she said to the tramp.
"Take this, but," she added, "you
should not forget I give it to you
not only for your own sake, but
for Christ's, for this is His day."
"Thank you, ma'am," replied
the tramp, as he extended his
hand and looked his good Samar-
itan in the eye, "but don't you
think that for His sake you might
put some butter on it?"

Fish That Never Sleep.
There are several species of
fish, reptiles and insects which
never sleep during their stay in
the world. Among fish it is now
positively known that pike, sal-
mon and goldfish never sleep at
all.

Carving in Wood.
Wood carving as an occupation
for women is coming to be a re-
cognized one, as well as a fad for
the society girl whose tastes run
to the utilitarian. The skillful
handling of the few tools required
and the rapidity with which the
average scholar learns to create
beautiful things from wood, have
made this fascinating study pop-
ular among people of refined
tastes. Wood carving is much
more cleanly than painting. Just
as refined, and gives as much op-
portunity for the power of ex-
pression.

The World Is As We Make It.
We make for ourselves our own
spiritual world, our own mon-
sters, chimeras, angels. All is di-
vine for the poet, all is great for
the hero, all is wretched, miser-
able, ugly and bad for the base
and sordid soul. We are all vis-
ionaries and what we see is pur-

YOU

DR. SEYMOUR COMING.

THE EMINENT EYE SPE-
CIALIST WILL VISIT OUR
CITY AGAIN--HIS WON-
DERFUL WORK HERE
LAST MARCH.

HIS SECOND VISIT TO BRYAN

This Skilled Optician is Endorsed by
the Most Prominent Citizens and
Highest Medical Authority
Throughout the En-
tire South.

We are more than pleased to be
able to announce that Doctor Sey-
mour, the well known optician will
visit our city again in the near
future. He comes endorsed by the
most prominent citizens and high-
est medical authority throughout
the entire south. We indeed ap-
preciate this opportunity of recom-
mending to our citizens this emi-
nent specialist. We believe he is
highly deserving of the many en-
dorsements he has received. His
visit will prove that he has many
friends here, and an enquiry made
of any who had their sight treated
by the doctor last March will prove
the highest esteem in which his
professional skill is held. The
doctor will be glad to meet any
who are having trouble with their
eyes. He assures them that if it
is within the power of science to
assist them he will do so. To show
what people whom he has treated
think of his ability, we publish a
few testimonials from our most
prominent citizens. These people
have all been fitted with glasses by
Doctor Seymour, and will cheer-
fully testify to their entire satis-
faction with the work done for
them by the doctor.

Bryan, Tex., June 7, 1899.
Dr. W. I. Seymour, Waco:

Dear Sir--Your favor of the 5th
is just received by me. I am glad
to know that you contemplate vis-
iting our city again. I appreciate
your invitation to call on you
when you come to Bryan. I will
bring my son and have you exam-
ine his eyes again. I feel proud
to say his eyes are very much im-
proved, and I believe the glasses
will ultimately cure his eyes.
I thank you for your kind invi-
tation to call on you again. Your
skill and scientific method of
treating deformed eyes is certainly
all that you claim. With best
wishes, I am yours,
D. D. Dawson.

Bryan, Texas, June 6, 1899.
Dr. W. I. Seymour, Waco, Tex.:

Dear Sir--It affords me much
pleasure to write you in regard to
my little boy, whose eyes were
treated by you some five or six
months ago. Before your treat-
ment he couldn't see to study, but
since your treatment he now at-
tends school regularly and can see
without difficulty. Anyone need-
ing your treatment could not in
my estimation do better than plac-
ing themselves under your care.
All of which I heartily recom-
mend.

Should you visit Bryan again, I
shall bring my son to see you.
When you come, I shall take the
opportunity of having you fit my
glasses.
Yours truly,
Mrs. L. B. REED.

College Station, Texas,
June 9, 1899.

Dr. W. I. Seymour, Capitol Hotel,
Houston, Texas:

Dear Doctor--In answer to
your inquiry as to the condition
of my eyes, I have this to say:
That the glasses you made for me
during your visit to Bryan last
March have proven of inestimable
value to me. My eyes are better
than they have been for years,
my headaches have entirely disap-
peared and I can read or sew for
any length of time without the
least inconvenience. My glasses
are a source of continual pleasure
to me.
Yours truly,
Mrs. W. H. DAVIDSON.

Dr. Seymour will be at the Ex-
change Hotel June 22-23-24.
Hours, 8 to 12 a. m., 1 to 6 p. m.

DEPUTY GROOM

BY T. C. DE LEON. COPYRIGHT, 1899, BY T. C. DE LEON.

daughter of the gods was Sis. All, divinely or otherwise, she was from fair, her nose "tip tilted" or less—"like the petal of a flower." But good hearted jollity radiated from her tan and freckles on her piquant and her plump tidiness of form red a true and loyal heart—not ally her own. In so far as she could anatomy Sis had given it to Jack. In that fairest of exchanges which proves the proverb about no robbery, and since the days of Sunday school picnics Jack had been the rival of Sis' shadow. He had early hoarded nickels for soda water and mint tins. Later he had hoarded his dimes for the rarer luxury of a buggy or a lake, but latest practicality he had forbidden all frivolities, where they were hoarded with the of an Isaac of York and regu- posited in bank. He course of true love in their id not belied another proverb, as a good fellow and handy, had no fear of work when he, but no regular "sit" had a spite of steady effort and a. So common sense swayed pair, and hope deferred pro- ness of heart until a fixed d assured. for him to starve alone," to philosophize to close

into talk on every known theme, from politics to literature, art to yellow fever, and even upon the varied forms of mania. With brave effort Jack tried to listen, but his mind was far away, and a brown, sweet face would rise before his eyes. As he later expressed it, he "just sprained his politeness" to listen, but his replies dropped into irrelevant monosyllables, and presently a decided snore told that his honest soul had passed the portals of the world of sleep. His companion was wide awake. Bright eyed, but quiet, he went on talking to himself inaudibly, for his lips moved ceaselessly. Suddenly Jack sat bolt upright—a grinding jar, a shock and shiver of the flying train, then a dead stand, with men running to the front, too rapidly for replies. He dared not leave his charge, but waited anxiously. Presently it was known that the engine had run into the rear of a "wild" train, smashing a car, damaging its own nose and tearing up one track for yards. The delay would last for hours, probably until the next up train. Lightning calculation made Jack's blood run chill. That delay would bring him to the asylum town only 30 minutes before the down train left. If he caught that down train, he could reach home at 11:30 on the 3d; miss it, and he would not attend his own wedding at sharp noon. Quick consultation with the friendly

The organ pealed more joyously, the bridesmaids entered the aisle and the bride had reached the portal. The new minister walked from the vestry room, followed by a bland and elegant—stranger! The bride advanced with down- cast eyes. At the chancel rail she raised them and recoiled with one wild scream. At that instant a messenger handed a telegram to the judge, and simultane- ously the best man rushed into the sacred edifice, breathless, hatless and screaming: "Jack was not on the train! Who's that?" He pointed at the supposed groom, who bowed blandly and answered: "There are occasions that can come but once in a lifetime. I should never forgive myself for the least delay in the ceremony. I am ready." As he spoke the sheriff moved softly to his side, whispering: "Just come into the vestry with me one moment." At the same instant the judge raised his hand for silence and read this tele- gram: For heaven's sake, wire Dr. — that I am not crazy! The prisoner stole papers while I slept; told them I was mad with belief I was a deputy. I am locked up. He has escaped with my warrant and tickets. Harry, for the Lord's sake! JACK DAWSON. The wedding came off a week later, but thereafter the new deputy never closed one eye with a crazy Chesterfield in charge.

Daring Deeds of Modern Surgery. In a recent address before a London medical association Dr. L. A. Weatherly, a prominent physician, said that if a surgeon of 60 years ago could wake from his everlasting sleep in this world and find himself in one of the modern operating theaters of a medical institution he would rub his eyes and stare with utter amazement at the daring deeds of the modern surgeon; that "he would see the patient brought in already unconscious of what was about to be done; he would note the scrupulous cleanliness which antiseptic surgery has taught us in all the surround- ings of the room, the appliances of the operating surgeon and his assistant; he would perhaps see the abdomen opened and its contents handled with the most perfect confidence, and this or that operation, never dreamed of in his day as being even possible without instant death, brought to a successful termina- tion. And wonderment would be justifi- cable." Dr. Weatherly thought the fault with the modern young operator in surgery was that he was a little too prone to use his knife as a means of diagnosis without giving his powers of observa- tion a chance to arrive at a right con- clusion.

Absentminded. "A well known professional man," says the Philadelphia Record, "who is noted among his friends for his absent- mindedness, thought he had reached the height of absurdity when he was forced to ask his wife his first name a short time ago in order to answer prop- erly a question asked by the assessor of his district. His memory, however, played him an even worse trick the other day, and the joke was so good that he told it on himself. "He was writing a letter in the post- office corridor one evening when a seedy looking person came up with a hard luck story. The writer paused long enough to tell the beggar that he had nothing for him and requested him to go away. The fellow persisted and again poured forth his woeful story. A watchman finally chased the beggar away, and the absentminded writer started to read what he had written. Great was his surprise when he found that he had transcribed word for word part of the hard luck tale that had been poured into his unwilling ears."

Out of the Depths. In the depths of the human heart are good and evil. Let us put in all the good we can, and put it deep, as deep as we can. The roiling of this fountain may send out a very foul stream be- cause it is from a very foul deep, or it may send out a stream of pure, sweet waters because the fountain is clean. Some weeks ago I sat near two young men, college students, who in the free- dom of the place talked, I suppose, as they would have done in their own room. Their talk was only blackguard- ism, profanity and slang. The sweetest name, the purest thing, to them were nothing but interjections and bywords. If during their school days thoughts sweet and strong and good, in the lan- guage of the masters of prose and po- etry, had been imbedded in the depths of their being, could they be so coarse, degraded and brutal in thought and language now? Could this mental and spiritual filth and abomination be the outcome of such early culture of the taste and the memory?—J. P. McCoskey in Pennsylvania School Journal.

Lord Salisbury on Beauty. Look at our dress. I do not mean our dress. I mean everybody's dress, for that matter. The ugliest dress which the English gentleman has ever worn has lasted for 50 years without a change. But I refer rather to the other sex, in whom we had some hope that the cult of beauty lingered still, but whether we go to those who may be called, in a literal sense, "fast"—I mean those who cultivate the bicycle—there you will see the sense of beauty is surely displaced. My belief is that if there was any Dante to write an artistic "Inferno" its lowest circle would be tenanted by the ladies who dress themselves in the bicycle skirt or knickerbockers.—London Times.

Jabbing the Old Man. "Pa," said little Tommy Figg, "I heard Mr. Watts say that great men's sons never did any good. I ain't a great man's son, am I?" Up to the time of going to press Mr. Figg's mind had not found a sufficient- ly diplomatic answer.—Tit-Bits.

Mr. E. J. Fountain has been elected manager of the Bryan oil mill and has assumed the work. No better selection could have been made. Mr. Fountain is a thorough business man, possessing great energy and ability in the line of financing. As remarked before the mill is being put in thorough repair, and its capacity increased. The Bryan oil mill makes a market for cotton seed here as well as disburse large sums for wages during the season, and as a home enterprise it deserves the support of this section.

On Sunday morning, June 4, at Fort Worth, Prof. J. L. Atwood, of Cartersville, Georgia, and Mrs. Anna Gaines, of Waco, both recently of Sebesta, this county, were married in the Spiritual Temple, at Fort Worth, by Rev. John Ring, of Galveston. The ceremony took place during a regular session of the state convention of the Texas Spiritualists in that city, and altogether was quite an impressive scene.—Caldwell News-Chronical.

Children's day exercises were held at Knob Prairie church last Sunday night. There was a large attendance and an interesting program was carried out. A collection was taken for the work. J. A. Freeman, J. W. Beard and S. H. Brockman were appointed a committee thank Miss Kelley and Mrs. Mark Wilcox for their efforts in behalf of the entertainment which was a pronounced success.

The colored Maconic grand lodge adjourned Tuesday night after a public installation of officers was held. The next meeting will be held in Galveston. The location of the proposed colored Masonic widows and orphans' home was deferred, and the matter was left to a committee who, it is understood, will locate the home wherever the inducements offered are the greatest.

James & McDougald handle everything in the drug line of the best and purest quality; as well as a full line of perfumery and toilet articles. They sell at the lowest prices and have a reputation for fair dealing with a large and increasing patronage which is greatly appreciated.

George H. Echols was here from Providence yesterday and brought a fine lot of vegetables to Howell Bros. His onions were much larger and finer than those shipped here from Alvin, and his cabbage was simply splendid. Of the latter, he sent a fine sample to the Eagle office.

Protracted services will be commenced at the Baptist church this morning at 11 o'clock by the pastor, Rev. R. D. Wilson, and Dr. Bagley, a distinguished divine of Navasota, will arrive tomorrow to assist in the meeting. The public is cordially invited to attend all the services.

John B. Mike not only sells the best groceries of every description at the lowest prices but he never fails to buy all the chickens and eggs brought to him at the highest market price. He has made the Bryan market the best in the country and wants to keep it up to that standard.

News was received here yesterday to the effect that a Bohemian girl was drowned Friday in the Brazos river at or near Pitts Bridge. She was only about seven years of age and fell out of a boat which her little brother was rowing. The body had not been found when the report was given.

Dr. B. F. Watkins and M. H. James joined Prof. Lewis of College, Dr. Geo. Lee and Sam Lee, J. C. Bolton, Prof. McDonald, Messrs. Soles and others in a big fish and squirrel fry at Sulphur Springs Friday. They had plenty of fish and a royal good time.

Acme mosquito bar frames, sold only at Mrs. B. White's furniture store, are the lightest, simplest, most durable, convenient and absolutely perfect frames made. Call and see them and you will be convinced. 177

John B. Mike sells the best groceries that money will buy at the lowest prices, and always pays the highest market price for chickens, eggs and all kinds of country produce.

James' heat powders, manufactured and sold by James & McDougald, are the best preparation for heat on children or adults. It soothes and heals almost immediately.

Prof. F. L. Elland and wife and Profs. J. W. Acuff and W. D. Everidge arrived from Waco yesterday to attend the Brazos county singing convention at Reliance.

W. C. Currie and family, Gus Francis, J. E. Crow and family, L. T. Ferrell and family, Jr W. Towns and others were here from Madison county yesterday.

Miss Effie Williams and Mrs. S. J. Carroll of Denton, are visiting Dr. and John Mrs. Geo. R. Tabor. Miss Williams is just a sister of Mrs. Tabor.

For brushes, combs, perfumery and Waldrop's articles of every description call Calvert James & McDougald, the leading Knowles' agents of Bryan.

4 p. m. For & Cox dispense refreshments Dr. Bagby's cut the dust from your throat you off these hot days. Give church last night. 174

Just the things the ladies need for warm weather comfort. The prices have melted down as the thermometer run up, and we want you to call and let us divide up our bargains with you. Yours to Please,

J. W. COULTER,

BRYAN, - - - TEXAS.

ANOTHER MAN SHOT.

One of the Baker. Shot by Two Men from Ambush Near London.

Cincinnati, June 17.—A special to The Times-Star from London, Ky., says at Begtown, Clay county, about seven miles from here Chris Jackson, Tom Baker's brother-in-law, was shot from ambush Friday night. He came here and had his wound dressed. He declined to give a full account of the trouble, he had with two men, one armed with a shotgun and the other with a revolver, and he knew the man who had the revolver, but will not tell his name. The revolver bullet took effect in the right thigh, making a painful flesh wound. A shot from the shotgun entered his back, but did no serious injury. They were extracted and he is resting easy. He was anxious to go after his assailants after his wounds were dressed, but was prevented. He emptied his revolver at the men, but does not think he hit them. He was riding Mr. Bowling's horse and probably was mistaken for him as threats to kill Bowling have been made.

Shot His Wife and Himself.

New Orleans, June 17.—William H. Fischer, builder and contractor, shot his wife on the public thoroughfare after brutally beating her, and then fatally wounded himself. They were married only six weeks ago and owing to his ill treatment she had been compelled to leave him. Since then he objected to her receiving the attentions of a former sweetheart, and waylaid her and dragged her three squares and then shot her three times. He was finally captured after running a mile from the scene.

Labor Editor Whips Three.

St. Joseph, Mo., June 17.—Editor Jas. T. Motter, of the St. Joseph Union, a weekly labor paper, while on his way home, was assaulted by Ed Allen, Jas. Casdorph and Lee Stanford, nonunion men, who had taken offense at Motter's writings. Casdorph, who is a giant, used brass knucks, but was knocked down and out by the editor, who also thrashed the other two. Stanford pleaded guilty and was given 100 days in jail. The others have not been tried.

Ingalls For Congress.

Atchison, Kas., June 17.—Atchison Republicans who are dissatisfied with the situation in the First congressional contest talk of John J. Ingalls as a candidate for the seat now occupied by Congressman Curtis. They have not secured Ingalls' consent to enter the race, but hope to. Mr. Ingalls is now in Washington, but will return to Washington within 10 days.

The Dead at New Richmond.

New Richmond, Wis., June 17.—The official list of the known dead here from the cyclone contain 102 names, five unidentified bodies were buried beside some parts of bodies. A conservative estimate of bodies still in the ruins is 15. This brings the loss of life to about 125. The best estimate on the loss of property in the city of New Richmond is \$700,000.

An Argument!

CAN BE EASILY settled as to whether we keep the best Teas, Coffees, Canned Goods, etc., by giving us a trial. We keep everything in our stock of a standard superior quality, and everyone agrees that we "fill the bill" to their entire satisfaction for excellence, low prices, and prompt service at all times.

MUST PUSH REBELS.

Washington Officials Want Aguinaldo Kept on the Move.

A BETTER BLOCKADE.

Orders Made to Maintain a More Stringent Blockade so Rebel Supplies May Be Cut Off—Troops to Be Sent.

New York, June 17.—According to a Washington correspondent of The Journal and Advertiser, two important decisions were made at the meeting of the cabinet held just before the president started for Holyoke, referring to the campaign in the Philippines. First, that in view of the strength of Aguinaldo in the north, as developed in dispatches from General Otis, the aggressive campaign against the rebel chief must be renewed with vigor, and second, that the army and navy must cooperate to maintain a tight blockade of Luzon, in order to prevent the landing of supplies of any character for the rebel forces.

In renewing the campaign against Aguinaldo, the president is pursuing the same policy as that now in operation against the rebel forces in the south.

President McKinley seems surprised that the insurgent forces should be able, apparently, to procure inexhaustible supplies of arms and ammunition, and directions were cabled Admiral Watson to cooperate with General Otis in trying to prevent the landing of munitions of war on the island of Luzon.

A blockade of the island was reported some time ago, but every encounter with the insurgents demonstrated that they still have abundant supplies.

The cabinet officers are of the opinion that if a strict blockade is maintained the insurgents will quickly exhaust their resources. Especial reasons for using extraordinary vigilance in maintaining the blockade are said to exist. English and American merchants in Hong Kong who are helping the Philippine junta are showing great activity and are said to be offering enticing inducements to blockade runners to carry arms and ammunition to Aguinaldo.

A telegram was sent to Major General Shafter, in command at the Presidio, San Francisco, directing him to use the utmost expediency in preparing the transports Zealandia, Valencia, Sheridan and Pennsylvania for the trip to Manila. Although it is deemed imperative by the president to get reinforcements to General Otis as soon as possible, the lack of transports may delay some of them until next month. The first expedition starting June 23 on the Zealandia will carry six troops of the Fourth cavalry, two companies of the Fourteenth infantry and as many recruits as possible. The second expedition starting June 24 on the Sheridan and Valencia will consist of the Nineteenth infantry and recruits.

A point of importance to the many applicants for commissions in the volunteer service was decided at the meeting. General Otis is to name officers for the three regiments of volunteers only in proportion to the number of men in the Philippines who enlist, if 3000 should enlist the general will appoint 80 or 90 of the total of 150 officers that would be needed, the rest of the officers being appointed by the president from applicants in the United States.

The Glacier at Port Said.

Port Said, June 17.—The United States refrigerating ship Glacier from New York for Manila, has arrived here. The Glacier has been assigned as a storehouse to the United States squadron in Asiatic waters. She is the first ship of the kind in the United States navy, and has on board a full cargo of general supplies for the American warships at Manila, including 1,500,000 pounds of refrigerated beef.

Enlisting Colored Men.

Chattanooga, June 17.—Federal recruiting officers here and at surrounding points have received orders from Adjutant General Corbin to begin at once the enlisting of negroes for service in the Philippines. As fast as enlisted, negroes will be sent to the Presidio, camp at San Francisco.

Series of Earthquakes.

Kingston, June 17.—A continuous series of earthquakes, extending from Colon through the Caribbean sea to Curacao and Maracaibo, are reported since May 1. The most severe action was felt at Montserrat and Guadalupe, causing much damage. A curious shock was felt throughout Jamaica on Wednesday, comprising five movements during 15 minutes. No damage however, was done.

Proceeded Robbers.

On the train, asked robbers went to Sis Bow Wallace, near Bel-hysterical, to rob Wallace. "Poor, dear, dear, Mrs. Wallace," she said, "prevent the robbery." She gave them the money. She gave them the money. She gave them the money.

THE OUTLOOK BRIGHT.

Crops and Business Prospects in the West Are Encouraging.

New York, June 17.—Anson R. Flower, head of the firm of Flower & Co., who has just returned from the west, said in discussing his trip:

"I visit the west every year at about this season, with the object of learning for myself the state of business and the crop outlook. I believe, from what I have seen and heard on the trip just ended, during which we traveled about 4000 miles, that the country has never been more prosperous than it is at present. The crops seem to be in good condition, and the western railway officials say, barring their opinion on the reports furnished directly to them by the agents along their respective lines, that there will be an average crop this year."

The manager of one of the northwestern lines, who was with us on the trip, told us that the crop in the region traversed by his road, which is chiefly a spring wheat country, would probably be larger than last year. The railroads are carrying more tons than ever to the mile and are reducing grades and otherwise bettering their property.

"As for the Federal Steel company it runs its mines and steamers as well as its manufacturing plant, and an enormous quantity of ore is being taken from its mines. All the other companies are prospering and industrial conditions throughout the country appear to be excellent. There does not seem to be a cloud on the financial sky."

Constable Killed by a Negro.

Patterson, La., June 17.—Constable John Berneaur, while attempting to arrest Louis Guidry, colored, was shot and killed by the latter. Guidry was wanted for the murder of the constable at Berwick, a few weeks ago, and Berneaur hearing that he was here, found him armed with a Winchester rifle and revolver. Berneaur, who was in a buggy, called on Guidry to surrender, when the latter, instead of surrendering, raised his rifle and fired the fatal shot. Berneaur, however, returned the fire with a shotgun and it is thought wounded the negro, who fled. Hounds were brought up from Thibadeaux and put on the trail and a large body of citizens headed by the sheriff, are now hunting for the murderer, and it is thought they have him surrounded about four miles above here.

Anaconda Mine Sold.

Salt Lake, June 17.—Marcus Daly of Montana and his associates, in the Anaconda Mining company, have sold all their holdings in that company's vast and varied interests to an eastern syndicate headed by John D. Rockefeller for \$28,000,000. Though the transfer occurred more than a month ago it has never been made public. The sale leaves Mr. Daly with nothing in Montana except his Bitter Root farm. He is also pledged not to engage in copper mining in Montana. Of the \$28,000,000 for which the Daly and allied interests were sold, Mr. Daly pockets \$6,000,000, J. B. Haggin gets \$9,000,000 and Lloyd Lewis of San Francisco \$8,000,000. In the transfer are included practically the entire town of Anaconda.

Alleged Carlist Arms Seized.

Madrid, June 17.—An official confirmation has been received of the seizure of the yacht Fire Fly at Arcachon, the popular summer bathing place, 35 miles by rail southwest of Bordeaux, France, with 4000 rifles, said to have been intended for the Carlists. It is claimed the Fire Fly belongs to Lord Ashburton, who is looked upon as being the representative of Don Carlos, the Spanish pretender in England. A well known Carlist who has been interviewed on the subject said: "Even if 4,000 rifles have been seized, 8000 have already entered the country." The rifles are the Chassepot pattern. The Fire Fly arrived at Arcachon from Dartmouth, England.

Coal for the Newark.

New York, June 17.—A dispatch to The Herald from Valparaiso says: The latest news from the cruiser Newark, is that the officers who went from Port Low to Quellon on steam launches have proceeded to Castro, where they embarked on the gunboat Pisagua, which was placed at their disposal, going directly to Ancud. They will load 200 tons of coal, which is the quantity the cruiser asked. The director of the navy says that if the weather is favorable the cruiser will have her coal in her bunkers by Thursday and be ready to start on her voyage.

Squadron of British Warships.

London, June 17.—According to a dispatch to the News Agency here from Pretoria, a squadron of seven British warships have arrived at Inyack island, or St. Mary island, the entrance to Delagoa bay. There is no confirmation of the report and in semi-official circles it is looked upon as being untrue.

Refused to Indict.

Reading, Pa., June 17.—The Berks county grand jury has ignored the bills of indictment charging certain Reading railroad employees as being responsible for the recent wreck at Exeter, where 29 persons were killed and many more injured.

NEWS IN BRIEF.

McCulloch county will erect a new courthouse at Brady, Tex.

There is no clew to the identity of the dead body found in Millam creek, near Tex.

THEIR PLANS FAILS.

Hot Fire from MacArthur's Men Scatter the Rebels at San Fernando.

Manila, June 17.—After cutting the railway and telegraph at Apolo, seven miles above, for the purpose of severing connection, the rebels attacked General MacArthur's lines at San Fernando at 4:30 o'clock Friday morning. They met with an unexpected warm reception and were repulsed with a loss of 75 killed, 80 prisoners and many wounded.

The rebel force, estimated to have numbered 3600 men, advanced stealthily from the jungle north of the city, and then divided with the evident purpose of surrounding the Americans.

The outposts of the Iowa regiment discovered the enemy and retired to their lines, where the division waited with an entrenched position, but the Kansas regiment received the first shock of attack. Reserving their fire until the enemy was within 600 yards the first volley of the Americans hit the rebels, who returned the fire wildly, the rest of their line failing to advance. The Americans, who thoroughly enjoyed the novelty of the situation—a waiting attack—sallied forth and the insurgents turned and fled.

Nothing is known here of the reported assassination of Aguinaldo.

TROOPS FOR OTIS.

Three Transports to Leave at Once and Others Will Follow Soon.

Washington, June 17.—Under the most favorable circumstances it will be hardly possible for the government to increase its army in the Philippines up to the 35,000 limit before August 1. About 6000 of the troops destined for service in the Philippines and included in the proposed 35,000 force, are still in this country and will not be able to reach the scene of action for five or six weeks. The department of war are making an effort to expedite their departure and to that end have arranged for the immediate departure of the Sheridan, Zealandia and Valencia. These vessels are all at San Francisco and have a total capacity of 4400. In addition to these reinforcements, provisions will have to be made for the transportation of about 1800 recruits now undergoing instructions at the Presidio of San Francisco, and the Nineteenth regiment infantry numbering 1800 men now in camp at Middletown, Pa.

TRAIN HELD UP.

Three Masked Men Go Through the Express and Mail Cars.

Mena, Ark., June 17.—The south-bound passenger train on the Kansas City, Pittsburg and Gulf railroad was held up by three masked men at a curve about a mile south of Shady, I. T., early Friday morning. The engineer was signalled to stop by a red lantern and on bringing the train to a stop guns were levelled at him, and the fireman was commanded to go back and cut off the express car. Then they all entered the cab of the engine, one of them being familiar with the engine ran the cars down the track a couple of miles, they went through the express and mail cars, securing all the booty in sight, the exact amount of which is not known.

Not In Line With Sayers.

Trenton, June 16.—Governor Voorhees has not yet answered the invitation of Governor Sayers of Texas, to attend a convention of governors in St. Louis to discuss the trust question. Governor Voorhees said he would send an answer next week. He added that he would not attend the convention and that he did not believe any good could come of it. He believed that the question of trusts could be more satisfactorily investigated by the present congressional commission. The trust question he said, was one that deserved a good deal of consideration, but he did not believe that the plan of Governor Sayers was the best one to adopt.

Dead Negro Found.

Baxley, Ga., June 17.—"Boy" Williams, colored, is reported to have attempted an assault on Mrs. H. W. Kennedy near Surrency, Ga., a few days ago. The negro was taken to jail, when he was suddenly spirited away. No information could be obtained regarding him until Friday, when the coroner was notified that a dead negro had been found 10 miles away.

Joining the Union Miners.

Pittsburg, Kas., June 17.—The striking union miners claim that all of the negro miners from Tennessee and Alabama have joined the union and will not go into the stockades surrounding Missouri Pacific mines. All or nearly all of the negroes are now drawing rations from the union's commissary.

Diamond Robbery.

San Antonio, June 17.—Mrs. Mary A. Wooley, a widow, has been robbed of over \$1500 worth of diamonds. The jewels were hidden in an old French clock. She had stepped into a neighbor's house and was gone not over an hour during which time the clock was removed. Nothing else in the house was touched.

Suit to Oust a Co.

Columbus, O., June 17.—The general has filed suit in court to oust the Centry company from doing business on the ground that it is not for the purpose of restricting trade and controlling prices of manufactured products.

Howard's Assassination.

Lexington, Ky., June 17.—Howard telegraphs here from Lexington, Ky., that the reports that James Howard had been assassinated at Manchester are absolutely false.

17 miles North of Br. Macy road. Everybody come and bring a bas.

LLED BY A BULL.

Man and Wife Gored to Death and Their Son Goes Crazy.

Huntington, Ind., June 17.—George Laurie and his wife were killed in a frightful manner here by a ferocious bull.

Laurie was a farmer, living at the edge of the city. He had a herd of fine cattle. He went to the cattle stalls to feed the animals. While he was in the building the bull attacked him. The animal had no horns, but he knocked Laurie down with his head and hoofs. While Laurie was prostrate the bull crushed nearly every bone in his body by dashing him against a large timber at the base of the stall. Every rib was broken and the man's chest was pounded to a jelly. His head was crushed.

It is presumed that Mrs. Laurie heard her husband's screams and went to his assistance, and that when she entered the stall to beat the bull away the animal turned on her and killed her in the same frightful manner.

When the bodies were found, both were in a heap in one corner of the stall, and crushed into limp masses of flesh and bones. The fierce brute was standing over them, as though ready to resume his work if either of them showed a sign of life.

A young man, who called at the place shortly after the tragedy, found the dead couple and spread the alarm. A crowd soon collected.

George Laurie, Jr., a son of the victims, was called from a field. When told of the awful death of his parents he lost his reason and is now a raving maniac.

Reformed and Died.

Chattanooga, June 17.—"If it takes whisky to save my life, I'll die," said Marion J. Smith a well known local character. He kept his word and died. Smith had been a drunkard for 20 years, and had been on a spree for the last five weeks. His wife is a Christian and had been pleading in vain for Smith to join the church and quit drinking. Last Sunday Smith attended a tent meeting drunk. The evangelists scored drunkards, and at the close of service he went forward and put a quart bottle of whisky in the preacher's hands and vowed to never to touch liquor while he lived. He kept praying continuously and Tuesday night was taken violently ill. Physicians prescribed whisky, but he refused to touch a drop, although his wife pleaded with him to take it. He died in horrible agony, refusing to touch liquor.

An Equilibrium Budget.

Madrid, June 17.—It is semi-officially announced that the Spanish minister of finance, Senor Villaverde, has established an equilibrium budget. It is understood a tax of 20 per cent will be imposed on internal rents and that which regards the external debt, the July coupons, will be paid in full, but the government will ask the cortes for authority to negotiate with foreign bondholders with a view of obtaining a reduction in the rates of interest.

Colonel Crozier Dead.

A bilene, Tex., June 27.—Colonel R. A. Crozier is dead here. He was 90 years of age. He came here a short time ago to visit his son-in-law, Major F. W. Girard. Colonel Crozier was formerly a prominent man in the politics of Tennessee. He was an editor, was elector for President Polk in 1844, was comptroller of the state and United States marshal. In 1859 he removed to Austin, Tex., where he resided to the time of his death.

Big Coal and Mineral Deal.

New York, June 17.—An important transaction is reported in southern coal and iron properties by which the Tennessee Coal, Iron and Railway company will acquire from the Sheffield Coal, Iron and Steel company large tracts of coal and mineral lands and important manufacturing plant. The price is not stated, but the transfer is understood to include all the property of the Sheffield company.

Earthquake at Iloilo.

Manila, June 17.—An earthquake shock was felt at Iloilo at 3 o'clock Friday afternoon. The inhabitants say it was the severest ever known. It is supposed that the shock was caused by the volcano Conlon in Negros in eruption. An explosion was heard at Iloilo, followed 30 seconds by shaking of the earth.

Indiana Lad Gets a Beautiful Girl.

Laporte, Ind., June 17.—The 16-year-old Union Mills, Ind., boy, who was killed by a heart-wrenching accident, caused by a falling beam, has been selected by a beautiful girl.
